

Jason Ryszka

Full Stack Developer

jason@handles.tech | (480) 442-3138

<https://Jason.Handles.Tech>

Professional Summary

Strategic and results-driven Full Stack Developer with 25+ years of experience spanning IT, software development, and network engineering. Proven track record of designing and delivering scalable technology solutions that enhance operational efficiency and drive business growth. Skilled in leading cross-functional teams, ensuring regulatory compliance, and managing robust technical infrastructures. Proficient in full stack development, RESTful API architecture, virtualization, and containerization with a strong focus on automation, security (OWASP best practices), and maintainability.

SKILLS

- **Programming:** PHP (OOP), JavaScript (OOP), HTML, CSS, jQuery, Bash, SQL, JSON, XML, YAML
- **Web & API Technologies:** REST, SOAP, XML-RPC, Websockets
- **Frameworks & Libraries:** Laravel, WordPress, jQuery, TailwindCSS, Bootstrap, SSO, 2FA, OAuth, JWT, Basic Auth, Bind9, SMTP, IMAP
- **Databases:** MySQL, SQLite, PostgreSQL, MongoDB, Redis
- **Network & Systems Administration:** Linux system administration, DNS, CLI, TCP/IP networking, Reverse proxy (Apache, NPM, Traefik)
- **Software & Tools:** AI MCPs, Docker, Apache, Nginx, Git, SVN, Virtual Machines (Proxmox, VirtualBox) Google Suite, AWS, NextCloud, RHEL Linux
- **Business and Project Management:** Product Development and Lifecycle, SaaS, Interdepartmental Liaison, KPI Tracking, TeamWork, Klaviyo
- **Tracking & Reporting:** Google Analytics, GTM, Hyros, WickedReports, VWO, Facebook Ads, Tune, Periscope,
- **CRM & Automation:** Salesforce, MarketingCloud, Keap, Go High Level, Maropost, HubSpot, ClickFunnels, Podio, Node-Red, N8N, CI/CD, Zapier, IFTTT, PlusThis

EXPERIENCE

Clever Investor, Tempe AZ - *Chief Technology Officer*

August 2015 - April 2025

- Lead and manage all technical aspects of product development and lifecycle, ensuring accurate documentation and systems interoperability.
- Designed, coded, and deployed secure, performant, and scalable REST APIs for intra and extra company data access.
- Leveraged Third-Party APIs to build code based solutions per specific project requirements.
- Managed IT and software development teams across multiple concurrent projects.
- Designed and implemented Sales, Marketing, and Business automation solutions with a strong emphasis on maximizing ROI and optimizing business efficiency.
- Enforced legal and compliance standards across technology and marketing departments.
- Administered all building infrastructure and IT assets of remote and in person employees, including ticketing systems, VoIP, Building Security, Computer Support, Remote Desktop, IP Cameras/NVR, Server Architecture, and Networking Equipment.

Key Technologies: PHP, JavaScript, HTML, CSS, Laravel, jQuery, REST APIs

Black Box Network Services, Chandler AZ - *Network Specialist*

January 2015 - August 2015

- Installed, tested, and repaired Ethernet, Coax, and fiber optic cabling as well as data switches, routers, and racks in semiconductor manufacturing environments (Intel & Motorola)
- Worked in cleanroom data centers, contributing to large-scale infrastructure projects.
- Troubleshoot and resolved network performance issues to maintain optimal functionality.
- Project Management for Installation and Repair team

Key Technologies: Cat5e, Fiber, Coax, Wireless Networking, OSPF, RIP, Cisco, Dell KVM

Cox Communications, Tempe AZ - *Installation & Repair Technician*

April 2008 - January 2015

- Utilized advanced tools to troubleshoot data issues in a HFC network environment.
- Installed and repaired video and data network services for residential and business clients.
- Performed TCP/IP Networking, IP-based services.

Key Technologies: HFC, MOCA, TCP/IP Networking, VPN, OSPF, RIP

AT&T - *Telecommunications Technician*

April 2001 - January 2008

- Installed, repaired, and maintained voice and data services for business and residential customers.
- Full network infrastructure and system integration from the central office to end user equipment..
- TCP/IP networking, network configuration, and troubleshooting.

Key Technologies: ISDN, T1, ADSL, Centrex, Lightspan, PairGain, GroundStart

EDUCATION

Purdue University Indianapolis 97-98 *Indianapolis, IN*

Electronics Engineering Technology

Purdue University North Central 96-96 *Westville, IN*

Electronics Engineering Technology

A.K Smith Career Center 92-96 *Michigan City, IN*

Three years specialized vocational training in Electronics Engineering Technology

One year Vocational Residential Electrical
