- Worked in cleanroom data centers, contributing to large-scale infrastructure projects.
- Troubleshoot and resolved network performance issues to maintain optimal functionality.

Key Technologies: Cat5e, Fiber, Coax, Wireless Networking, Troubleshooting

Cox Communications, Tempe AZ - *Installation & Repair Technician*

April 2008 - January 2015

- Installed and repaired video and data network services for residential and commercial clients.
- Developed expertise in networking, IP-based services, and software programming.
- Pursued self-learning in full stack web development technologies, including PHP, JavaScript, HTML, CSS, jQuery, and Bootstrap.

Key Technologies: Networking, Troubleshooting, HTML, CSS, JavaScript

AT&T - *Telecommunications Technician*

April 2008 - January 2015

- Installed, repaired, and maintained voice and data services for business and residential customers.
- Managed full network infrastructure and system integration from the central office to end user equipment..
- Developed hands-on expertise in TCP/IP networking, network configuration, and troubleshooting.

EDUCATION

Purdue University Indianapolis 97-98 *Indianapolis, IN*

Coursework completed in Electronics Engineering Technology

Purdue University North Central 96-96 *Westville, IN*

Coursework completed in Electronics Engineering Technology

A.K Smith Career Center 92-96 *Michigan City, IN*

Three years specialized vocational training in Electronics Engineering Technology

One year Vocational Residential Electrical
